# **AG**POST™

# LOCK IT™

**Tough as the land down under.**

*Fast & Effective!*

# AGPOST™ LOCK-IT™

# TRUE AUSSIE INGENUITY.

Reliability and speed have become a necessity in today's fencing. Traditional Ag-Post and Ag-Post Mega provide great strength, consistency and value.  Ag-Post Lock-IT takes it to the next level, with increased weight & profile combined with the unique Lock-IT system.  New Ag-Post Lock-IT delivers!

Tough as the Land Down Under, just got *fast & effective!*

Manufactured by hot rolling high grade steel for strength.

The unique Lock-IT clip mechanism enables a simple push of your fencing wire into the post…and it is locked securely!

Every post is Hot Dip Galvanised.

Lock-IT clips are made from Stainless Steel spring wire

Uniformly cut end-points to ensure straight and easy drive in.

## AG-POST LOCK-IT is available in 2 lengths and profiles.

All Ag-Post Lock-IT products are hot dip galvanised to Australian Standards.
Ag-Post Lock-IT are packed in easy to handle Traypacks, with no wires to ensure your
fencing job is done with the highest speed in mind.

### 165cm LOCK-IT POST

Suits the most common MaxLoc and
ProTough pre-fabricated fences. Using
the standard Ag-Post profile, with
thicker fins, it weighs in at 3.4kg and
will deliver years of service

### 225cm LOCK-IT POSTS

Comes in two configurations. A 7-clip version to
suit 16-180-15 pre-fab fence, and an 8-clip version
to suit 15-150-15 pre-fab fence. The profile is larger
and the fins thicker, allowing the fence build to be
strong, robust and long lasting.

**8% heavier**
than a standard
165cm Ag-Post.

Almost
**30% heavier**
than a standard
Ag-Post.

165cm post measurements: 2.9cm, 12.4cm, 9.5cm, 20.4cm, 10.9cm, 6.7cm, 7.5cm, 8.6cm, 14.2cm, 12.7cm, 10.1cm — 9x LOCK-IT CLIPS + 2 SLOTS
